Palestinians and Palestine supporters rally to confront Senators Clinton and Schumer while they support the brutality by the Israeli government towards the Palestinian people.

July 26, 2002-Thousands of people will rally to defend Palestine while the US government supports and aids Israeli terrorism. The gathering of people will begin at 42nd Street and 2nd Avenue at 5 P.M. We will march towards the Senators' office on 48th Street and 3rd Avenue.

We are demanding the end to aid to the Israeli government. We demand self-determination for the Palestinian People and support the right of return for 5 million refugees. We also demand an end to the inhuman state of siege and curfews imposed by the Israeli government against the Palestinian people.

Our voices must be heard by the Senators, the President, and the people. We will defend Palestine and not be silenced while other governments make choices for Palestine and the Palestinian people. For more information:
